## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election with traverse of Group I (claims 27-30) in the reply filed on 07/25/05 is acknowledged. The traversal is on the ground that undue burden would not be placed upon the Examiner by maintaining both groups of claims. This is found persuasive and the restriction requirements are withdrawn.

### **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gregory Schivley on 10/13/05. The application has been amended as follows:

#### **In the claims:**

Claims 23-26. (cancelled).

### **REASONS FOR ALLOWANCE**

3. Claims 27-30 are allowed. The following is a statement of the examiner's reasons for allowance. The present application relates to electrophoretic displays. Regarding claim 27, the prior art fails to disclose the step of evaporating the microcapsule dispersion to form a planar

Art Unit: 2873

first and second portion of the microcapsules, or fail to suggest that such step would be obvious in the unique sequential order as claimed. The claimed invention is therefore considered to be in condition for allowance as being novel and non-obvious over prior art.

4. The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 USC 102 or 103 would be improper. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Other Information/Remarks***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Miura et al. (U.S. Patent No. 6,876,476) discloses similar electrophoretic device as that in the cancelled claims 23-26.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jack Dinh whose telephone number is 571-272-2327. The examiner can normally be reached on M-F (9:30 AM - 6:00 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Georgia Y. Epps can be reached on 571-272-2328. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
